Parma, 16th June 2010. The organization of next "Trofeo delle Industrie" has already begun to work. This year the Trophy celebrates its 40<sup>th</sup> edition; Parma Karting, as usual, is taking care of its promotion and organization. It will be a great occasion for all the national karting to celebrate this traditional event which, the only one in Italy, has been taken place since 1971 without any interruption.

In its list of winners there are the greatest champions in the history of karting and of car-racing: Ivan Capelli (1978), Stefano Modena (1981), Gabriele Tarquini (1985), Giancarlo Fisichella (1990) and, more recently, Lewis Hamilton, winner in 1999 of the 100 ICA. It is thanks to the organizers, the Pellegrini's family, and their great and unchanged sports passion after so many years of activity that the Trophy can now boast a long tradition of champions and history.

This year, for this important meeting, there are loads of events and several important novelties in schedule, first of all the venue of the trophy which will be held on the **7 Laghi Circuit** of Castelletto di Branduzzo (Pavia), already venue for the last two editions of the "Trofeo Margutti", another important

meeting organized by Parma Karting.

From the point of view of the regulation, this 40th "Trofeo delle Industrie" is open to foreign entrants and it will be run in two days, on **6th and 7th November**. The categories on track will be the following: **KF3, KF2,**
